This is the personal website of Mike aka Rong aka Pops.

By day I work in the information technology field for a vendor management firm called [Data Search Inc.](#) I help manage our internal applications as well as an internet portal that we developed called [vmcSelect](#). vmcSelect is both a website and a middleware data connection application running on an IBM Lotus Domino server.

By early evening (and weekend) I'm the father of two young adults; a daughter in college and a son who is in the Air Force. I am also husband to she who bears the list called "ToDo" and is the key holder of the all defining document called "Family Calendar".

My lovely wife and I also have 2 four legged children "[our girls](#)", Tigger and Roo.

When I'm not bringing home the bacon or working on the homestead I can often times be found at our [church](#) where I'm a deacon.

And if I'm no where to be found then I must be out riding [Big Red](#) or hanging with the Xiles.

So welcome to my little corner of the World Wide Web.
